Important

COVERAGE FOR AT-HOME COVID-19 TESTS

Dear Anuj,

Having access to COVID-19 testing is critically important as we work to limit the spread of COVID-19. Per guidance from the Biden Administration, AmeriHealth Administrators will cover the cost of up to 8 over-the-counter (OTC), also called at-home, FDA-approved COVID-19 tests per plan member, per calendar month for the duration of the Public Health Emergency. This policy went into effect January 15, 2022.

GET YOUR AT-HOME COVID-19 TESTS FOR \$0

We worked with our Pharmacy Benefits Manager, FutureScripts/OptumRx (OptumRx), to cover the cost of the OTC tests when purchased in the following ways:

- **Visit an OptumRx Preferred COVID-19 Test Network Pharmacy:*** You can visit any Walmart, Sam's Club, or Rite Aid location. To pay \$0, simply get a COVID-19 test kit off the shelf, go to the pharmacy counter, present your AmeriHealth Administrators ID card, and ask to have the OTC test submitted to OptumRx.
- **Order online:** Log in to your member account at myahabenefits.com, select *Pharmacy* in the *My Benefits* box, scroll down and select *Pharmacy Mail Order/ Home Delivery*. A new page will open. If you have not accessed the Pharmacy Mail Order/ Home Delivery function previously, you may be required to register your account. From there, select *Order Now* to get at-home COVID-19 tests with \$0 copay. Please note that there is a minimum order amount required to get free shipping. [Log in now](#).

GET REIMBURSED IF YOU PAY OUT-OF-POCKET

If you purchased a test on or after January 15, 2022 at a location other than the two options above, you can submit for a reimbursement of up to \$12 per test. It is important to save your receipts and the UPC code(s) from the test box(es), and submit them with your reimbursement request.

To submit for reimbursement, complete the [OptumRx Over-the-Counter Test Reimbursement Form](#) online. You must submit a separate claim form for each family member. Submissions are

processed in the order they are received. It may take up to four weeks to receive your reimbursement.

BIDEN ADMINISTRATION PROVIDING FREE AT-HOME TESTS

Please note that AmeriHealth Administrators and OptumRx do not control the supply of at-home tests. In addition to the above options, the Biden Administration has also purchased a large supply of tests and has made them available online. Every home in the U.S. is eligible to order 4 free at-home COVID-19 tests.

To order 4 free tests for your household, visit [COVIDTests.gov](https://www.covidtests.gov). Order your tests now so you have them when you need them.

COVID-19 DIAGNOSTIC TESTS

AmeriHealth Administrators continues to cover FDA-approved COVID-19 diagnostic tests, such as PCR tests, with no cost-sharing for any member when ordered or administered by a health care provider following an individualized clinical assessment.

Diagnostic tests do not count towards the OTC limit of 8 tests per member, per month.

THE HEALTH CARE SYSTEM IS OVERWHELMED

Due to the recent surge in COVID-19 cases, the entire health care system has become overwhelmed, with many health care settings experiencing staffing shortages. If you believe you need to get a COVID-19 test, please consider one of the above options. You can also look for a [community-based testing location](#) near you.

We hope these options help you get COVID-19 tests so you can make informed decisions about how you and your family navigate the COVID-19 pandemic.

With care,
AmeriHealth Administrators

*FutureScripts/OptumRx is working diligently to expand the Preferred COVID-19 Test Network with additional pharmacies. Visit [our COVID-19 website](#) periodically to review the pharmacies in this network.

FutureScripts/OptumRx provides pharmacy benefit management services to AmeriHealth Administrators plan members.

WE'RE ALL IN THIS TOGETHER
